PROFESSIONAL SUMMARY

Results-driven Business Analytics professional with a B. Tech in Computer Science (AI & ML) and hands-on experience in Power BI, Excel, and SQL-driven analytics. Skilled at converting complex datasets into actionable business intelligence supporting strategic decision-making across sales, marketing, and operations with proficient in KPI development, trend analysis, customer segmentation, and stakeholder reporting with a strong focus on delivering the measurable business outcomes.

EDUCATION

Vellore Institute of Technology (VIT) *Oct 2022 – May 2026*
B. Tech – Computer Science in Artificial Intelligence and Machine Learning **CGPA: 8.85 / 10.0**

TECHNICAL SKILLS

BI & Visualization: Power BI, Tableau, Excel (PivotTables, Power Query, VLOOKUP), Google Data Studio
Data & Analytics: MySQL, PostgreSQL, Python (Pandas, NumPy, Seaborne, Matplotlib), ETL Pipelines, KPI Development
Predictive Analytics: Scikit-learn, XGBoost, TensorFlow, NLP, Regression, Clustering, Feature Engineering
Tools: Streamlit, Git, Jupyter Notebook, Flask, Data Storytelling, Stakeholder Presentation

PROJECTS

Financial Sales & Profitability Analysis | **Excel | Pivot Tables | Power Query** *2025-2026*

- Analyzed 3 years of sales data across 8 product categories and 6 regions using Excel PivotTables and Power Query; built dynamic dashboards with slicers tracking Revenue, Gross Margin, Cost of Goods Sold, and YoY growth trends.
- Identified top 3 underperforming SKUs contributing to a 17% margin decline through variance and profitability analysis; delivered an executive summary with pricing and cost-reduction recommendations adopted by the business team.
- Automated monthly reporting workflows using Excel formulas (VLOOKUP, INDEX-MATCH, IF-nested logic), reducing manual data consolidation time by 50% and improving report accuracy and turnaround for leadership review.

Sales Data Dashboard | **Power BI | DAX | SQL | Excel** *2025-2026*

- Developed an interactive Power BI sales dashboard tracking $2M+ in revenue across 5 regions and 12 product lines; created DAX measures for MoM growth, YTD targets, profit margin, and regional market share KPIs.
- Identified 22% Q3 underperformance in two key regions through DAX-driven trend and variance analysis; presented findings to a mock leadership panel and proposed promotional strategies adopted into the quarterly business roadmap.
- Reduced ad-hoc reporting requests by 35% through self-serve analytics with interactive slicers and drill-through filters; streamlined data refresh cycle by 40% resulting in faster, more reliable reporting for stakeholders.

Market Basket & Cross-Sell Opportunity Analysis | **Excel | Power BI | SQL** *2024-2025*

- Analyzed 50,000+ retail transactions to uncover frequently co-purchased product combinations; identified top 10 cross-sell pairs with 35%+ lift, enabling the sales team to redesign bundling and upsell strategies.
- Built an interactive Power BI report visualizing purchase affinity heatmaps, category performance trends, and seasonal demand patterns across 8 product categories to support merchandising decisions.
- Presented findings to a simulated category management team; recommendations led to a proposed 12% increase in average order value through strategic product placement and bundle pricing adjustments.

ContentRec – Product Recommendation Engine | **Python | Data Analysis | Streamlit** *2023-2024*

- Designed a data-driven recommendation system analyzing 10,000+ user preference records; applied behavioral segmentation to surface personalized top-10 suggestions, achieving an 81% recommendation relevance rate.
- Improved catalog coverage by 18% by incorporating collaborative demand signals; conducted A/B testing to validate performance gains and documented results in a business-ready insights report for stakeholders.
- Deployed a live self-serve interface enabling non-technical stakeholders to query insights in real time; supported content acquisition decisions and inventory prioritization based on user engagement patterns.

CERTIFICATIONS

Deep Learning Specialization — deeplearning.ai / Coursera (2023)
Machine Learning Specialization — Andrew Ng / Stanford University (2024)
Microsoft Excel Expert (MOS: Excel Associate) — Microsoft Office Specialist / Coursera (2025)

ACHIEVEMENTS & PUBLICATIONS

- Published peer-reviewed research paper on AI & ML applications in Agriculture in IEEE — one of the world's most prestigious international journals in Computer Science and Electrical Engineering.
- Kaggle Top 20% ranking on the Ames Housing Price Prediction challenge; demonstrated strong analytical modelling and data interpretation skills benchmarked against a global analytics community.
- Completed 100+ coding and analytical challenges on LeetCode, HackerRank, and CodeChef; built strong problem-solving and data reasoning skills directly applicable to business analytics roles.
- Led event planning and community outreach initiatives as an active member of the E-Green Club and Anime Club at VIT, demonstrating cross-functional collaboration and stakeholder management.
